

If coming from the North on I-75 take the US Route 33 exit WEST – Exit 110 (at Wapakoneta). Near St. Marys, 33 will combine with State Route 29. Follow SR 29 west through Celina. Appx 3 miles past Celina turn left onto State Route 118 and follow it south about 4 miles. Our plant is located on the left side of the road at the north edge of Coldwater – the first building as you come into town with three flag poles out front.
